

**Reflex Packaging** has long been a supplier of CDrom and DVD packaging to major OEM's. Our Optical Drive packs are used by customers include Toshiba, Samsung, Iomega, and Sun Microsystems. We have now established a program to offer our Optical Drive solutions to customers who require smaller quantities. These kits are available in both 1" and 1.5" cushion versions to match the fragility and shipping requirements of your drive. Simply contact Reflex to have your Optical Drive packaging requirements fulfilled.

### Performance

**ReFlex®** cushions offer top level protection to ensure that your Optical Drive shipments arrive at the customer intact.

### Storage & Shipping

**ReFlex®** cushions stack! This feature can reduce your warehouse space requirements by up to 85%. The following list contains the quantity of each pack per pallet.

**1.0" Cushion Pack = 700 sets /pallet**  
(including outer box: 9.375 x 3.75 x 8.25")

**1.5" Cushion Pack = 500 sets /pallet**  
(including outer box: 10.75 x 5.0 x 9.625")

### Environmental

Manufactured from 100% recycled PE content, **ReFlex®** cushions are environmentally preferred to foam packaging. They are also 100% recyclable.
